RESILIENT AND MODERN SCHOOL INFRASTRUCTURE)**

CLARIFICATION No. 3

No.	Request	Answer
1	<p>In respect to the shortlisting criteria “strong and solid experience in investment planning”, our understanding is that a project design company with experience in elaboration of Feasibility Studies for works projects (including educational infrastructure) has the relevant experience taking into account the fact that according to HG 97/2016, a section in any Feasibility Study is related to identification, proposal and presentation of scenario/ technical and economic options for completion of an investment project. Please clarify if our understanding is correct.</p>	<p>A project design company with experience in elaboration of Feasibility Studies for works projects may have relevant experience in investment planning as long as that experience is not limited only to the elaboration of feasibility studies but to the elaboration of a plan that includes long term infrastructure development.</p>
